The U.S. Department of Energy has released the draft OU10 Proposed Action Memorandum to remove two underground storage tanks within Building 443 at the site. One storage tank contains fuel oil while the second tank contains a mixture of water and sludge associated with the past storage of fuel oils and spent solvents. The draft project action includes:

- A brief summary of the data for the site;
 - An explanation of the proposed action;
 - Waste management considerations;
 - Brief explanation of how the proposed action is consistent with any long-term remedial action objectives; and
 - Implementation schedule and completion date for the proposed action.
- A public comment period has been established, extending from October 27, 1994 through November 29, 1994. To provide you with an overall perspective on the proposed action, information will be presented at the November Rocky Flats Monthly Public Information meeting to be held:

**Wednesday, November 16, 1994
6:30 p.m. - 9:30 p.m.**

**Holiday Inn
10 East 120th St.
Northglenn, Colorado**

DRAFT OU10 PROPOSED ACTION MEMORANDUM
